

# Get connected with DayPoint SE...

a Team Collaboration Application  
from TeamPoint Systems, Inc.

DayPoint SE is a web-based team collaboration solution with features designed to enhance your organization's ability to work together and accomplish mission-critical tasks. By creating an online work center and giving team members easy access to each other and to important data, DayPoint SE allows teams to collaborate and coordinate on meetings, tasks, ideas and information.

Benefits of DayPoint SE:

- Simple to install...up and running in less than an hour
- Simple to use...no additional software or IT staff required
- Reduced costs through more efficient use of time and resources
- Increased timeliness and quality of information
- Affordable; quick return on investment
- Risk-free, 30-day trial

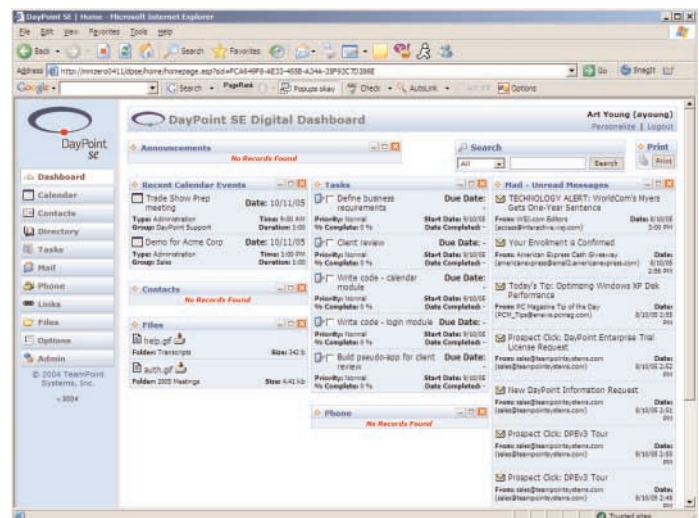

With DayPoint SE, your team and entire organization will reap the benefits of enhanced communications, coordination and productivity. With constant access to information and other team members, your team will be able to cultivate important client and supplier relationships and move projects forward with quick decisions and actions.

Benefit from DayPoint SE by:

- **Calendaring:** Create events and appointments among team members, email invitations and reminders, and track attendee participation in events.
- **Project Management:** Manage complex projects, assign tasks to team members and establish task priorities and milestones. Keep everyone on task and on deadline.
- **Contact List Management:** Team members can manage contact lists, search contact information and segment contacts in a private or shared manner to record information specific to your organization.
- **Email:** Full-featured mail client writes emails in rich text email editor and checks spelling in outgoing email. Allows users to share messages in group folders.
- **Document Management:** Private and shared folders limit access to appropriate team members. Integrity of files is maintained with a check-out control, version history and group security settings.
- **Many other features** including phone messaging, discussion forums and administrative features.
- Supports multilingual communication needs.

Over 30,000 project managers and business professionals use DayPoint products every day to increase their effectiveness and productivity. Learn how DayPoint SE can help your organization.
